## How to Find Our Trails

The Watertown Land Trust's mission is to preserve open space land in Watertown and surrounding towns, sometimes through outright ownership and sometimes by means of conservation easements. We want future generations to enjoy the beauty and tranquility of Watertown's natural landscape. Currently we own 170 acres in town. Most of our properties are open to the public. We have walking trails at four of our tracts as shown on the map. From time to time we have evening programs on educational topics such as land preservation, nature, or land use. We also sponsor hikes on our properties and other areas of interest close to Watertown. We are an all-volunteer organization and welcome your help in carrying out our activities, especially trail maintenance.
